EXPERIENCE

PowerPoint
2020 - 2023

as a professional PowerPoint designer, I am dedicated to transforming ideas into visually stunning presentations that elevate the communication experience. My unwavering commitment to quality, creativity, and client satisfaction sets me apart in the field, making me the ideal partner for bringing your vision to life.

Adobe Illustrator
2021 - 2023

my two-year journey with Adobe Illustrator has been a rewarding experience filled with growth and creativity. It has become an indispensable tool that empowers me to bring my ideas to life and communicate visually. I look forward to the exciting possibilities that lie ahead as I continue to explore the vast world of vector design with Adobe Illustrator.

Programming
2022-2023

I am actively engaged in learning programming, both through university courses and self-study. This multifaceted approach allows me to combine the structured learning environment of a university setting with the flexibility and exploration offered by self-learning.
This combination of university education and self-study reflects my dedication and enthusiasm for learning programming. It showcases my ability to adapt to different learning environments and take ownership of my education. I am eager to continue my growth as a programmer and contribute my skills to meaningful projects.

EDUCATION

Egypt - japan University of science and technology

BACHELOR OF COMPUTER SCIENCE
expected graduation : 2026
